

F117 NIGHTHAWK™

Increased Protection With Sleek Designer Style

Features:

- Engineered to protect highly targeted, high-end eyewear without sacrificing aesthetic
- Highly visible design for increased deterrence
- Grip technology that strengthens hold upon tampering
- Prevents product lockdown & allows for customer interaction
- Rounded form factor for comfort
- Product damage prevented via rubber inlays
- Fast & easy application & removal without requiring any tools
- Durable, lightweight, compact design
- AM or RFID technology versions available

Designed to tighten its grip in the event of an improper removal, the F-117 Nighthawk provides formidable protection, while preserving the display aesthetic & interactivity for customers.

Frequent Applications:

- High-end, designer eyewear
- Glasses & sunglasses
